
Monday 16 May

Dear Parents and Caregivers,

As you will be aware from recent news updates, Covid cases across the country are on the rise. We are seeing this at school as well, with both staff and students being affected.

In order to keep case numbers under control so that we can stay open, please remember to continue with the following:

- Keep your child at home if they are feeling unwell
- Test your child for Covid if they have any symptoms
- Encourage your child to wear a mask when indoors where possible
- Encourage your child to follow hygiene protocol e.g. washing and sanitising hands, distancing, coughing and sneezing into the elbow.

It is also important that you let us know if your child or a family member tests positive for Covid. Please refer to our flowchart (attached) and fill in the appropriate form if someone in your household tests positive for Covid.

The isolation period for someone with Covid or someone who is a household contact, is seven days. Please refer to our flowchart and click the link “Self Isolation Requirements” for further details.

Thank you for your continued support in helping us to stay well and keep our school open.

Hayden Iles
Principal
